

## 1979 Editorial Index

---

# ***PULP & PAPER***

---

**By**  
**Subject • Company • Country • Author**

Complete listings of all feature articles and news stories published in 1979 issues of PULP & PAPER. Article listings are by subject matter, by company, and by author. News stories are listed by company, and articles and news stories covering activities outside North America are listed under the name of the foreign country.

NAP = North America/Profile 1979 (June 30 issue)

BG = Buyers Guide (November 15 issue)

# Index by Subject

## Chemicals

Boiler water treatment series—analysis of carryover	Nov 127
Boiler water treatment series—analysis of corrosion	Dec 72
Boiler water treatment series—analysis of deposits	Oct 127
Boiler water treatment series—pretreatment	Sep 150
Boiler water treatment series—water quality needs	Aug 120
Borol cuts costs in TMP, groundwood bleaching	Jun 74
Chemical demand in Canada remains high, supply good	Oct 72
Chemical supply to U.S. industry—survey, forecast	Oct 67
Chlorine dioxide generation—data on new technology	Oct 74
Lithium tracer solves oxidation pond problems at MB	Jan 133
Naval stores production lags behind market demand	Nov 156
Polymer gel reduces primary clarifier solids at Brown	Mar 180
St. Regis improves byproduct recovery with monitoring	Feb 71
Sodium hydrosulfite bleaching—its effects on pulp	Mar 73
Wood-derived chemicals: trends in U.S. production	Jun 102

## Coating/sizing

Adhesives and binders: directory of major products	May 166
Batch vs continuous coating discussed by Cellier	May 100
Blade-on-blade coater upgrades LWC machine in Germany	May 102
Bowater improves off-machine coater operation (S.C.)	Nov 79
Coated roll quality improved by single-drum winder	May 98
High-solids coating technology featured at conference	Aug 149
Market trends for coated magazine and other papers	May 96
Price/availability data for coating, filler pigments	May 105
Technological developments in paper, board coating	May 106

## Energy conservation

Boiler design, operation trends focus on economy	Dec 120
Cogeneration for small mills—economic comparisons	Aug 170
Computerized gas monitor increases fuel use accuracy	Nov 105
Fourdrinier has areas for steam, energy savings	Jan 105
In-plant power generation vs purchased electricity	Mar 131
Linerboard drying statistics for North American mills	Nov 97
Mathematical formulas for lime kiln energy saving	Apr 78
Mechanical seals have energy-saving advantages	Aug 146
Molybdenum lubricant reduces power use	Dec 68
Optimizing linerboard drying can yield major savings	Nov 101
Oxygen in kraft lime kiln adds capacity, saves fuel	Mar 181
Spaced sootblowing on recovery boilers cuts costs	Feb 127
Swedish recovery systems stress energy conservation	Sep 178
Vacuumless couch rolls on newsprint save power (Finland)	Dec 96
Woodchips help fuel wood-fired generating plant	Jul 128

## Engineering

Advanced troubleshooting techniques used at IP	Feb 122
Blade-on-blade coater upgrades LWC machine in Germany	May 102
Boiler design and operation—discussion of trends	Dec 120
Boiler water treatment series—analysis of carryover	Nov 127
Boiler water treatment series—analysis of corrosion	Dec 72
Boiler water treatment series—analysis of deposits	Oct 127
Boiler water treatment series—pretreatment	Sep 150
Boiler water treatment series—water quality needs	Aug 120
Bottom-portion flow concept in flumewater cleaning	Jun 126
Bowater improves off-machine coater operation (S.C.)	Nov 79
CanCel now making bleached kraft at Prince Rupert	Jul 66
Causticizing systems—troubleshooting common problems	Dec 128
CFI installs polyethylene liners in sewer pipes	Mar 153
Chlorine dioxide generation—data on new technology	Oct 74
Cogeneration for small mills—economic comparisons	Aug 170
Corrosion control for electrostatic precipitators	Oct 154
Corrosion control improvements for kraft mills	Jul 146
Corrugating machines—fine-tuning techniques	Dec 104

Couch rolls without vacuum are success in Finland	Dec 96
Double-felting of presses is proving effective	Jul 130
Easy method for estimating size of mill equipment	Apr 185
Engineering executives view industry's problems	Nov 68
Fabric design: its effect on twin-wire formers	Jun 157
Factors in choosing batch or continuous coating	May 100
Fast winding systems designed for high-speed machines	Oct 180
Fire-resistant cable coating reduces electrical fires	Dec 97
Flame-sprayer repairs yankee dryer at Potlatch (Ida.)	Mar 179
Flotation deinking system in a Swedish plant	Jul 71
Forming fabric allows more deinked fiber in tissue	Feb 104
Fourdrinier has areas for steam, energy savings	Jan 105
Gilman Paper uses new press felt to end wad burn	Apr 75
High-frequency dryer used on medium machine	Aug 95
In-plant power generation vs purchased electricity	Mar 131
Key design factors in planning a TMP mill	Jun 122
Longwood chip mill successful alternative at Westvaco	Jul 152

Maintenance Tips: see listings under author index for:

Rivers, Morrie	
Mechanical seals have energy-saving advantages	Aug 146
Molybdenum lubricant lowers tissue machinery energy use	Dec 68
Monofilament dryer clothing offers advantages	Dec 69
New Teflon cover for dryer rolls good to 400°F	Oct 179
Paper machine developments discussed by E. J. Justus	Nov 122
Paper trim handling system—pointers for design	May 124
Plasma arc cutting can lower mill maintenance costs	Dec 109
Plastic refiner plates—advantages for sawdust pulps	Mar 100
Practical mill application—improved chip sizing	Jun 182
Practical mill application—lime kiln burns wastes	Apr 153
Practical mill application—pump lubrication with steam	Apr 100
Quick technique for paper machine roll alignment	Apr 124
Recommendations for safety at recovery boiler	Feb 156
Redesign of liquor clarifier solves CZ's problems	May 148
Refiner rebuilding done in-plant can cut costs 50%	Dec 66
Scaling in concentrators—P&G's program for reduction	Dec 92
Spaced sootblowing on recovery boilers cuts costs	Feb 127
Technological developments in paper, board coating	May 106
Titanium found superior for corrosion applications	Sep 127
Water reuse in vacuum pump seal water systems	Jul 74

## Environmental control—air/water quality

Brownstock filtrates toxicity correlated to dilution	Sep 97
Condensate stripping—techniques and developments	Aug 167
Congressmen speak out at environmental forum	Aug 164
Criminal prosecution seen as trend in EPA enforcement	Sep 124
Effluent is focus of TAPPI Environmental Conference	Jul 100
Lithium tracer solves oxidation pond problems at MB	Jan 133
Methods for measuring TRS compounds in kraft mill	May 75
Mobile labs used for compliance testing at IP	Jul 94
Odor control technology affects kraft mill design	Sep 75
Oxygen delignification can reduce pollution	May 142
Polymer gel reduces primary clarifier solids at Brown	Mar 180
Venturi scrubber backup system successful at Weyco	Oct 101
Water reuse in vacuum pump seal water systems	Jul 74
Weyerhaeuser rescues, recycles whitewater (Ore.)	Mar 106

## Expansion/modernization

Alabama River export market pulp mill starts up	May 68
Alabama River mill has latest woodyard design	Feb 74
Aracruz successfully operates market pulp mill (Brazil)	Apr 150
Arkansas Kraft adds second linerboard machine	Oct 150
Arkansas Kraft upgrades secondary fiber plant	Nov 148
Bowater starts up largest North American TMP mill	Sep 120
CanCel now making bleached kraft at Prince Rupert	Jul 66
Capacity additions in U.S. and Canada by state, province, and company	NAP 49

Capital spending trends in U.S./Canadian industry  
 CZ Canada's new TMP plant operating over capacity  
 Donohue St-Félicien starts up kraft mill in Quebec  
 Federal starts up 1000-tpd market pulp machine (N.C.)  
 Fraser converts Edmondston to Mg-base sulfite  
 Great Southern ups unbleached kraft liner, medium capacity  
 Jari market pulp mill in Brazil has many innovations  
 Madison Paper converts to supercalendered papers  
 Marcal more than doubles tissue capacity at Elmwood  
 North Pacific brings new newsprint mill on-line (Wash.)  
 O-I's expansion makes it leader in corrugated  
 Pejepscot Paper upgrades machines, increases output  
 Saxon Industries' wet-end rebuild ups board quality  
 Scott's Warren Div. installs new single-drum winder  
 Sonoco ups medium machine capacity by 100 tpd (S.C.)  
 Southeast Paper's recycled news/TMP mill goes on-line  
 Stone's Coshocton mill adds no-sulfur pulp inill

## Finance/economics

Canadian industry in 1978—economics, production  
 Capital spending programs at U.S. and Canadian mills  
 Company profiles—financial, production data for 77  
 U.S./Canadian leaders  
 Future corrugated supply analyzed at FBA meeting  
 Future liner supply analyzed by FBA's Rebeck  
 MacMillan Bloedel's financial status discussed by Knudsen  
 Market pulp—review of 1978 worldwide exports, imports  
 capacity distribution  
 Outlook 1979—analysts say profits may rise  
 Outlook 1979—Canada depends on exports for growth  
 Outlook 1979—industry heads predict slower growth  
 Outlook 1979—international trade holds many benefits  
 Outlook 1979—market prospects for five major grades  
 Outlook 1979—wage guidelines make year challenging  
 Outlook 1979—western Canada labor outlook uncertain  
 Paper engineers' salaries barely beat inflation  
 Paper industry price fixing: effect of legislation  
 Price/availability data for coating, filler pigments  
 Railroad freight rates and the paper industry  
 Uncoated groundwood papers market is strong, growing  
 U.S. industry in 1978—review of economics, production  
 World pulp market analyzed, next cycle forecast  
 World trends in pulp and paper—capacity, production and  
 demand data by continent and country

## Finishing/converting

Adhesives and binders: directory of major products  
 Automating reel and winder aids production  
 Broke reduction—techniques for handling, disposal  
 Careful papermaking reduces finishing costs  
 Fast winding systems designed for high-speed machines  
 Finishing department efficiency-rating questionnaires  
 Finishing—review of technical advances since 1970  
 High-speed sheeting/packaging ups output at Nekoosa  
 Humorous look at finishing department problems  
 Labeling system speeds skid and roll identification  
 Paper trim handling system—pointers for design  
 Precision folio sheeter ups S.D. Warren's efficiency  
 Precision sheeters lower finishing costs at Mead mill  
 Tales of a troubleshooter—pros and cons of unions  
 Tales of a troubleshooter—supercalendering newsprint

## Management

API's Slinn: Industry won't meet 1980 energy goals  
 Bleached paperboard—market profile, production data  
 Brazil's eucalyptus pulps a threat to U.S. hardwoods  
 Canadian industry in 1978—economics, production  
 Capital spending programs at U.S./Canadian mills  
 Capital spending trends of U.S./Canadian industry  
 Cartoonist's view of humorous side of 1978  
 Chemical demand in Canada remains high, supply good  
 Chemical supply to U.S. industry—survey, forecast  
 Coated groundwood publication papers—market profile,  
 production data  
 Coated paper—market profile, production data  
 Company profiles—financial, production data for 77

U.S./Canadian leaders  
 Construction paper and board—market profile, production  
 data  
 Construction paper and board—market profile, production  
 data  
 Controlling injury costs before and after accidents  
 Corrugating medium—market profile, production data  
 Corrugating medium—market profile, production data  
 CPPA's Hart welcomes moderate government interest  
 Criminal prosecution seen as trend in EPA enforcement  
 Engineering executives view industry's problems  
 Environmental laws subject of API/NFPA forum  
 European pulp consumption and demand data, 1978-83  
 Finishing department efficiency-rating questionnaires  
 Fire loss of raw materials reduced by proper storage  
 Labor bargaining in 1979 reviewed at API/FBA meeting  
 Linerboard—market profile, production data  
 Linerboard—market profile, production data  
 MacMillan Bloedel's financial status discussed by Knudsen  
 Market pulp—review of 1978 worldwide exports, imports,  
 capacity distribution  
 Market trends for coated magazine and other papers  
 Newsprint—market profile, production data  
 Newsprint—market profile, production data  
 OSHA policies, past and present, are reviewed  
 Outlook 1979—analysts say profits may rise  
 Outlook 1979—Canada depends on exports for growth  
 Outlook 1979—industry heads predict slower growth  
 Outlook 1979—international trade holds many benefits  
 Outlook 1979—market prospects for five major grades  
 Outlook 1979—wage guidelines make year challenging  
 Outlook 1979—western Canada labor outlook uncertain  
 Outplacement services help executives find new jobs  
 Packaging and industrial papers—market profile,  
 production data  
 Paper engineers' salaries barely beat inflation  
 Paper-grade chemical market pulp—market profile,  
 production data  
 Paper industry price fixing: effect of legislation  
 Paper machine injuries—causes and prevention  
 Political action committees: how the paper industry operates  
 in the political arena  
 Preventive maintenance reduces equipment failures  
 Railroad freight rates and the paper industry  
 Rayonier's President Gross discusses plans, market  
 Recycled boxboard and paperboard—market profile,  
 production data  
 Recycled boxboard and paperboard—market profile,  
 production data  
 Self-paced training system used at CFI's Augusta mill  
 Shipping rules may change corrugated grade structure  
 Tissue—market profile, production data  
 Tissue—market profile, production data  
 Uncoated printing/writing papers—market profile,  
 production data  
 Uncoated printing/writing papers—market profile,  
 production data  
 Uncoated groundwood printing grades—market profile,  
 production data  
 U.S. Forest Service chief discusses policies  
 U.S. industry in 1978—review of economics, production  
 Wastepaper recycling—present and future status  
 Wastepaper—review of 1978 U.S. usage and exports  
 Women making inroads in the paper industry  
 World pulp market analyzed, next cycle forecast  
 World trends in pulp and paper—capacity, production and  
 demand data by continent and country

## Meetings/conferences

API annual meeting looks at energy goals, paper use  
 API/FBA conference looks at 1979 labor bargaining  
 API/NFPA Environmental Forum examines regulations  
 CPPA annual meeting has broad-based program  
 Europa conference covers web-forming, consolidation  
 FBA annual meeting predicts future corrugated demand  
 FBA spring meeting looks at trends in liner supply  
 Naval stores production lags behind market demand  
 PPI's New Pulp Symposium looks at foreign hardwoods

TAPPI Alkaline Pulping Conference has varied program  
 TAPPI annual meeting looks at winding, papermaking  
 TAPPI/ATCP review progress in bleached deinked pulp  
 TAPPI Coating Conference covers high-solids technology  
 TAPPI/CPPA conference focuses on pulp bleaching  
 TAPPI Environmental Conference focuses on effluent  
 TAPPI papermakers meeting covers chemicals, additives  
 WMU seminar studies fiber, water, energy savings  
 World mechanical pulping conference looks at TMP

## Papermaking/boardmaking

Arkansas Kraft adds second linerboard machine  
 Automating reel and winder aids production  
 Bleached paperboard—market profile, production data  
 Careful papermaking reduces finishing costs  
 Chemicals, additives discussed at papermakers' meeting  
 Coated groundwood publication papers—market profile, production data  
 Coated paper—market profile, production data  
 Computer control aids boxboard machine efficiency  
 Computer control results in uniform reel building  
 Construction paper and board—market profile, production data  
 Construction paper and board—market profile, production data  
 Corrugating machines—fine-tuning ups output, savings  
 Corrugating medium—market profile, production data  
 Corrugating medium—market profile, production data  
 Double-felting of presses is proving effective  
 Dryer section monitoring upgrades performance  
 Easy method for estimating size of mill equipment  
 Effect of forming fabric design on machine performance  
 Fiber-, filler-, water-, energy-saving discussed at WMU  
 Forming fabric allows more deinked fiber in tissue  
 Fourdrinier power needs vary for similar machines  
 Gilman Paper uses new press felt to end wad burn  
 Great Southern ups unbleached kraft liner, medium capacity  
 High-frequency dryer used on medium machine  
 Linerboard drying statistics for North American mills  
 Linerboard—market profile, production data  
 Linerboard—market profile, production data  
 Marcal more than doubles tissue capacity at Elmwood  
 Monitoring refiner stock freeness improves product  
 Monofilament dryer clothing causes less sheet marking  
 Museum depicts Holyoke paper industry heyday  
 Newsprint—market profile, production data  
 Newsprint—market profile, production data  
 Newsprint produced with vacuumless couch rolls (Finland)  
 New Teflon cover for dryer rolls good to 400°F  
 O-I's expansion makes it leader in corrugated  
 Optimizing linerboard drying can yield major savings  
 Packaging and industrial papers—market profile, production data  
 Paper-grade chemical market pulp—market profile, production data  
 Paper machine developments discussed by E. J. Justus  
 Plastic refiner plates—advantages for sawdust pulps  
 Precision folio sheeter ups output at S. D. Warren  
 Recycled boxboard and paperboard—market profile, production data  
 Recycled boxboard and paperboard—market profile, production data  
 Saxon Industries' wet-end rebuild ups board quality  
 Slime increases in high-temperature closed systems  
 Sonoco ups medium machine capacity by 100 tpd (S.C.)  
 St. Anne's Mark II formers optimize production (U.K.)  
 Tissue—market profile, production data  
 Tissue—market profile, production data  
 TMP pulp screening advances improve printing grades  
 Trends in paper machine clothing design  
 Uncoated groundwood papers market is strong, growing  
 Uncoated printing/writing papers—market profile, production data  
 Uncoated printing/writing papers—market profile, production data  
 Uncoated groundwood printing grades—market profile, production data  
 Under-machine broke system design affects efficiency

## Pulp processing

Alabama River mill produces clean, bright pulps  
 Analysis of Borol in TMP, groundwood bleaching  
 Aracruz successfully operates market pulp mill (Brazil)  
 Bleaching, recovery discussed at TAPPI pulping meet  
 Boiler design, operation trends focus on economy  
 Bowater starts up largest North American TMP mill  
 Brownstock filtrates toxicity correlated to dilution  
 Brownstock washing—review of current technology  
 Causticizing systems—troubleshooting common problems  
 Chip-bulk density control improves digester output  
 Chlorine dioxide generation—data on new technology  
 Choosing best pulping process for whole-tree chips  
 Computer control for lime kiln/causticizing area  
 Computer control of brownstock washing cuts costs  
 Condensate stripping—techniques and developments  
 Control system in world's largest TMP mill (Sweden)  
 Corrosion control in kraft mills can be improved  
 CZ Canada's new TMP plant operating over capacity  
 Design of TMP mill can enhance production  
 Donohue St-Félicien starts up kraft mill in Quebec  
 Dregs-washing upgrade cuts soda loss, freshwater use  
 Federal starts up 1000-tpd market pulp machine (N.C.)  
 Finlay Forest uses flash dryer for pulp bleaching  
 Fraser converts Edmundston to Mg-base sulfite  
 How TMP bleaching differs from groundwood bleaching  
 Instrumentation needs for kraft recovery outlined  
 IP tests and uses stumpwood for pulp (Fla.)  
 Mathematical formulas for lime kiln energy savings  
 Methods for measuring TRS compounds in kraft mill  
 No-sulfur pulping facility added to Stone's Ohio mill  
 Odor control technology affects kraft mill design  
 Oxygen delignification successful for E. B. Eddy  
 Oxygen in kraft lime kiln adds capacity, saves fuel  
 Pressurized grinding process gives superior groundwood  
 Pulp bleaching is subject of TAPPI/CPPA conference  
 Recommendations for safety at recovery boiler  
 Recovery boiler computer control succeeds in Finland  
 Redesign of liquor clarifier solves CZ's problems  
 Sawdust kraft pulping grows due to new technology  
 Sodium hydrosulfite bleaching—its effects on pulp  
 Spaced sootblowing on recovery boilers cuts costs  
 Swedish kraft mill features automatic batch pulping  
 Swedish recovery systems stress energy conservation  
 TAPPI/ATCP review progress in bleached deinked pulp  
 TMP process is topic of world pulping seminar  
 TMP pulp screening advances improve printing grades
